Inclusion-Check

The Tool for Measuring Inclusion in Organizations

In cooperation with our intermediary partner

compasso//

ALL AT A GLANCE

BRIEF DESCRIPTION
The Inclusion Check is a tool for measuring inclusion in organizations. An anonymous survey is used to determine the "status quo", which is then presented graphically in the evaluations. Based on the results, targeted measures and strategies can be developed. Two different evaluations are part of the Inclusion Check. On the one hand, respondents receive individual feedback after completing the questionnaire. On the other hand, an overarching evaluation is made available for the organization to download after the survey has been completed.

INCLUSION-CHECK PLUS
To get even more out of the survey, the evaluation with Inclusion-Check PLUS can be carried out in detail across several team/department levels.

USE
For managers, experts in the field of Diversity & Inclusion and human resources.

ADDED VALUE
With the Inclusion Check, an organization can independently and easily assess the status of inclusion.

DATA PROTECTION
Participation in the survey is anonymous. Only the person taking part will see the individual feedback.

EVALUATIONS
- Individual feedback with personal recommendations for action for the person completing the form
- Organizational Evaluation

LANGUAGES
The survey tool is available in four languages: German, French, English and Italian.

COSTS
Use of the Inclusion Check is free. More detailed evaluations with Inclusion Check PLUS are available for a fee. License costs start at CHF 7.00 and depend on the number of users. More information is available at www.inclusion-check.ch/en/in-brief/plus

PROCEDURE FOR SURVEY MANAGERS

STEP 1 – ONBOARDING
Register on the inclusion-check.ch website.

You will receive the access data for logging in directly after your registration.

STEP 2 – CONFIGURATION
You can configure the survey in your personal cockpit and define the start, end and survey groups, for example.

After configuration, you will receive the link to the survey, which you can provide to the participants.

STEP 3 – FILLING OUT THE SURVEY
Participants complete the questionnaire on their own within a set time frame.

After completing the survey, they can directly download their individual feedback with personalized action recommendations.

STEP 4 – REPORTING
At the end of the survey period, you can download the overall evaluation in your Cockpit.

For evaluations across several levels, switch to Inclusion-Check PLUS and gain even more insights.
